

SONI KUMARI

DevOps Engineer | Azure Cloud & Infrastructure Automation

• +91 91424 88216 • sighsonisept3@gmail.com • linkedin.com/in/soni-kumari-b940aa209

PROFESSIONAL SUMMARY

DevOps Engineer with 5+ years of progressive IT experience, including 3+ years specializing in Microsoft Azure cloud infrastructure. Proven ability to design and deliver scalable, secure, and highly available cloud environments using Infrastructure as Code (Terraform). Adept at building end-to-end CI/CD pipelines with GitHub Actions and Azure DevOps, embedding DevSecOps practices — including static analysis (TFSEC, TFLint), secret scanning (TruffleHog), and integration testing (Terratest) — to enforce security and quality at every stage of delivery.

CORE SKILLS

- **Cloud & Infrastructure:** Microsoft Azure, AWS (EC2, CloudWatch), Azure VMs, NSG, VNet, Azure Resource Manager (ARM), Azure Storage, Azure SQL
- **Infrastructure as Code:** Terraform (Modular IaC), Azure CLI, Terratest, ARM Templates
- **CI/CD & Automation:** GitHub Actions, Azure DevOps (YAML Pipelines), Git, GitHub, Shell Scripting / Bash
- **DevSecOps & Quality:** TFSEC, TFLint, TruffleHog, Super-Linter, Terratest, Security Automation
- **Containerization:** Docker, Container Deployments, Scalable Application Architecture
- **Monitoring & Observability:** Prometheus, Grafana, Loki, Azure Monitor, AWS CloudWatch, Alerting & Dashboards, OpenCost
- **Operating Systems & Tools:** Linux (Ubuntu/CentOS), Windows OS, ServiceNow, Agile / Scrum

PROFESSIONAL EXPERIENCE

DevOps Engineer | HCL Technologies

Oct 2024 – Present

- Designed and deployed modular Azure cloud infrastructure using Terraform (IaC), reducing provisioning time and improving environment consistency.
- Built and maintained end-to-end CI/CD pipelines using Azure DevOps and GitHub Actions, accelerating software release cycles and reducing deployment errors.
- Containerized applications with Docker and supported scalable, zero-downtime deployments across Azure environments.
- Integrated DevSecOps tooling (TFSEC, TFLint, TruffleHog, Super-Linter, Terratest) into pipelines to enforce policy compliance and eliminate security misconfigurations before deployment.
- Implemented observability solutions using Prometheus, Grafana, and Loki; established alerting thresholds that improved incident detection and reduced MTTR.
- Collaborated within Agile/Scrum teams to resolve production incidents, maintain high availability SLAs, and continuously improve deployment workflows.

Cloud Engineer | HCL Technologies

May 2023 – Sep 2024

- Provisioned and managed Azure virtual machines, Virtual Networks, and Network Security Groups in alignment with workload and security requirements.
- Monitored infrastructure health using Azure Monitor and AWS CloudWatch; proactively diagnosed and resolved critical issues including VM downtime and CPU/memory spikes.
- Maintained EC2 instance lifecycle on AWS, handling deployment, resizing, and decommissioning based on application demand.
- Coordinated with development and operations teams to ensure seamless environment changes and minimal service disruption.

Network Engineer | HCL Technologies

Jan 2022 – May 2023

- Managed network device alerts and performed first-line troubleshooting (FLT) across enterprise network infrastructure.
- Handled DNS lifecycle operations including zone entry creation and deletion across multiple environments.
- Triageed and resolved P3 incidents via ServiceNow, coordinating with Cisco TAC for RMA and technical escalations.
- Collaborated with global stakeholders to address operational and change-related network issues, ensuring adherence to change management procedures.

CERTIFICATION

AWS Certified Cloud Practitioner | Validation No: RGR3WDDLSJF1QLC2

ACHIEVEMENTS

- Team Excellence Award — Recognized for outstanding contribution to the delivery of high-availability applications through cross-functional collaboration and DevOps best practices.
- Star Performer Award — Awarded for consistently maintaining elevated system uptime and resolving critical production incidents within defined SLA thresholds.

EDUCATION

Bachelor of Technology — Sharda University, Greater Noida

2017 – 2021
